

MANITOBA'S NORTHLAND

*In the Heart of
Canada's Vacationland!*

North to Adventure

Where outdoor family vacations are a way of life

Thrill to vivid contrasts in this vast, rugged land! It's an exciting combination of crystal clear lakes and turbulent white water . . . stands of stately pine and looming granite cliffs . . . a land where moose, deer and waterfowl fill your gun sights or your camera lens . . . and "lakers" up to 60 pounds snap hungrily at your line. A country of modern, comfortable lodges . . . sun-swept beaches . . . long, lazy summer days . . . and hospitable people!

Relive the days when cannon guarded Fort Prince of Wales . . . just one of many historical sites that highlight regular train excursions to Churchill on Hudson Bay.

Wing your way "inside the rim of adventure" with float equipped planes. Some 39,000 square miles of sparkling lakes and rivers, many uncharted and unnamed, invite you to touch down.

There's "dynamite" in The Flin Flin Lakes Area and other Northern waters. It explodes each time you hook a Northern Pike or Walleye.

Explore the fascinating North by boat — your own or a rented one. Reliable, experienced guides can introduce you to some of the best fishing waters in all North America.

Your Northland Vacation

A thrilling new experience
inside the rim of adventure

Northern Manitoba is as close as your car!
Good, all-weather roads are carved from solid rock . . . laid across bottomless muskeg . . . sweep through thick forest . . . on their way "North of '53". This is North America's last pioneer country; rugged, non-commercialized beauty; hundreds of unsurveyed lakes and streams full of hungry fish; tall, majestic forests where fauna and flora exist in their natural states; and fascinating boom towns, proud of their part in opening up the north.

*"Variety is the spice of holiday life
in Northern Manitoba"*

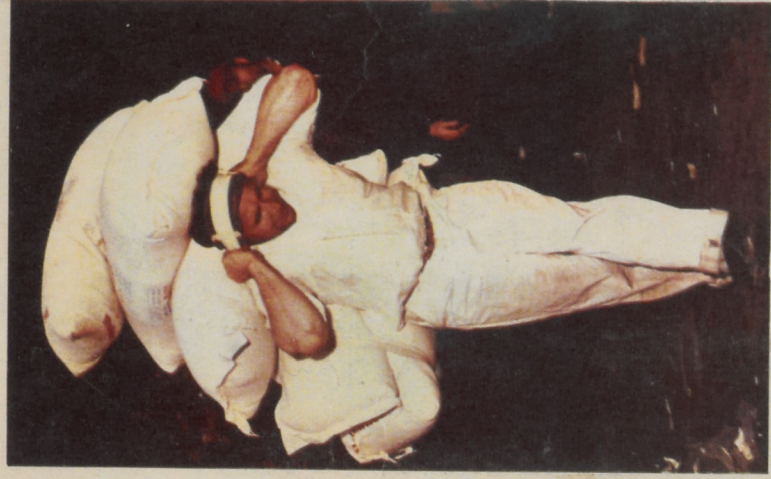

Take your choice — all the comforts of modern accommodation or "roughing it" under canvas or a canopy of stars. Either way, you'll never sleep sounder!

The pressures of city life have no place in the relaxed informality of good company around a sizzling pan of freshly caught Walleye or Trout.

Come for an award-winning catch! This is the place—five to nine pound Brookies . . . up to 60 pound Lake Trout.

Share in all the excitement of Flin Flin's famous Trout Festival every June. See colorful trappers, fur traders and their descendants form amazing feats of skill and endurance.

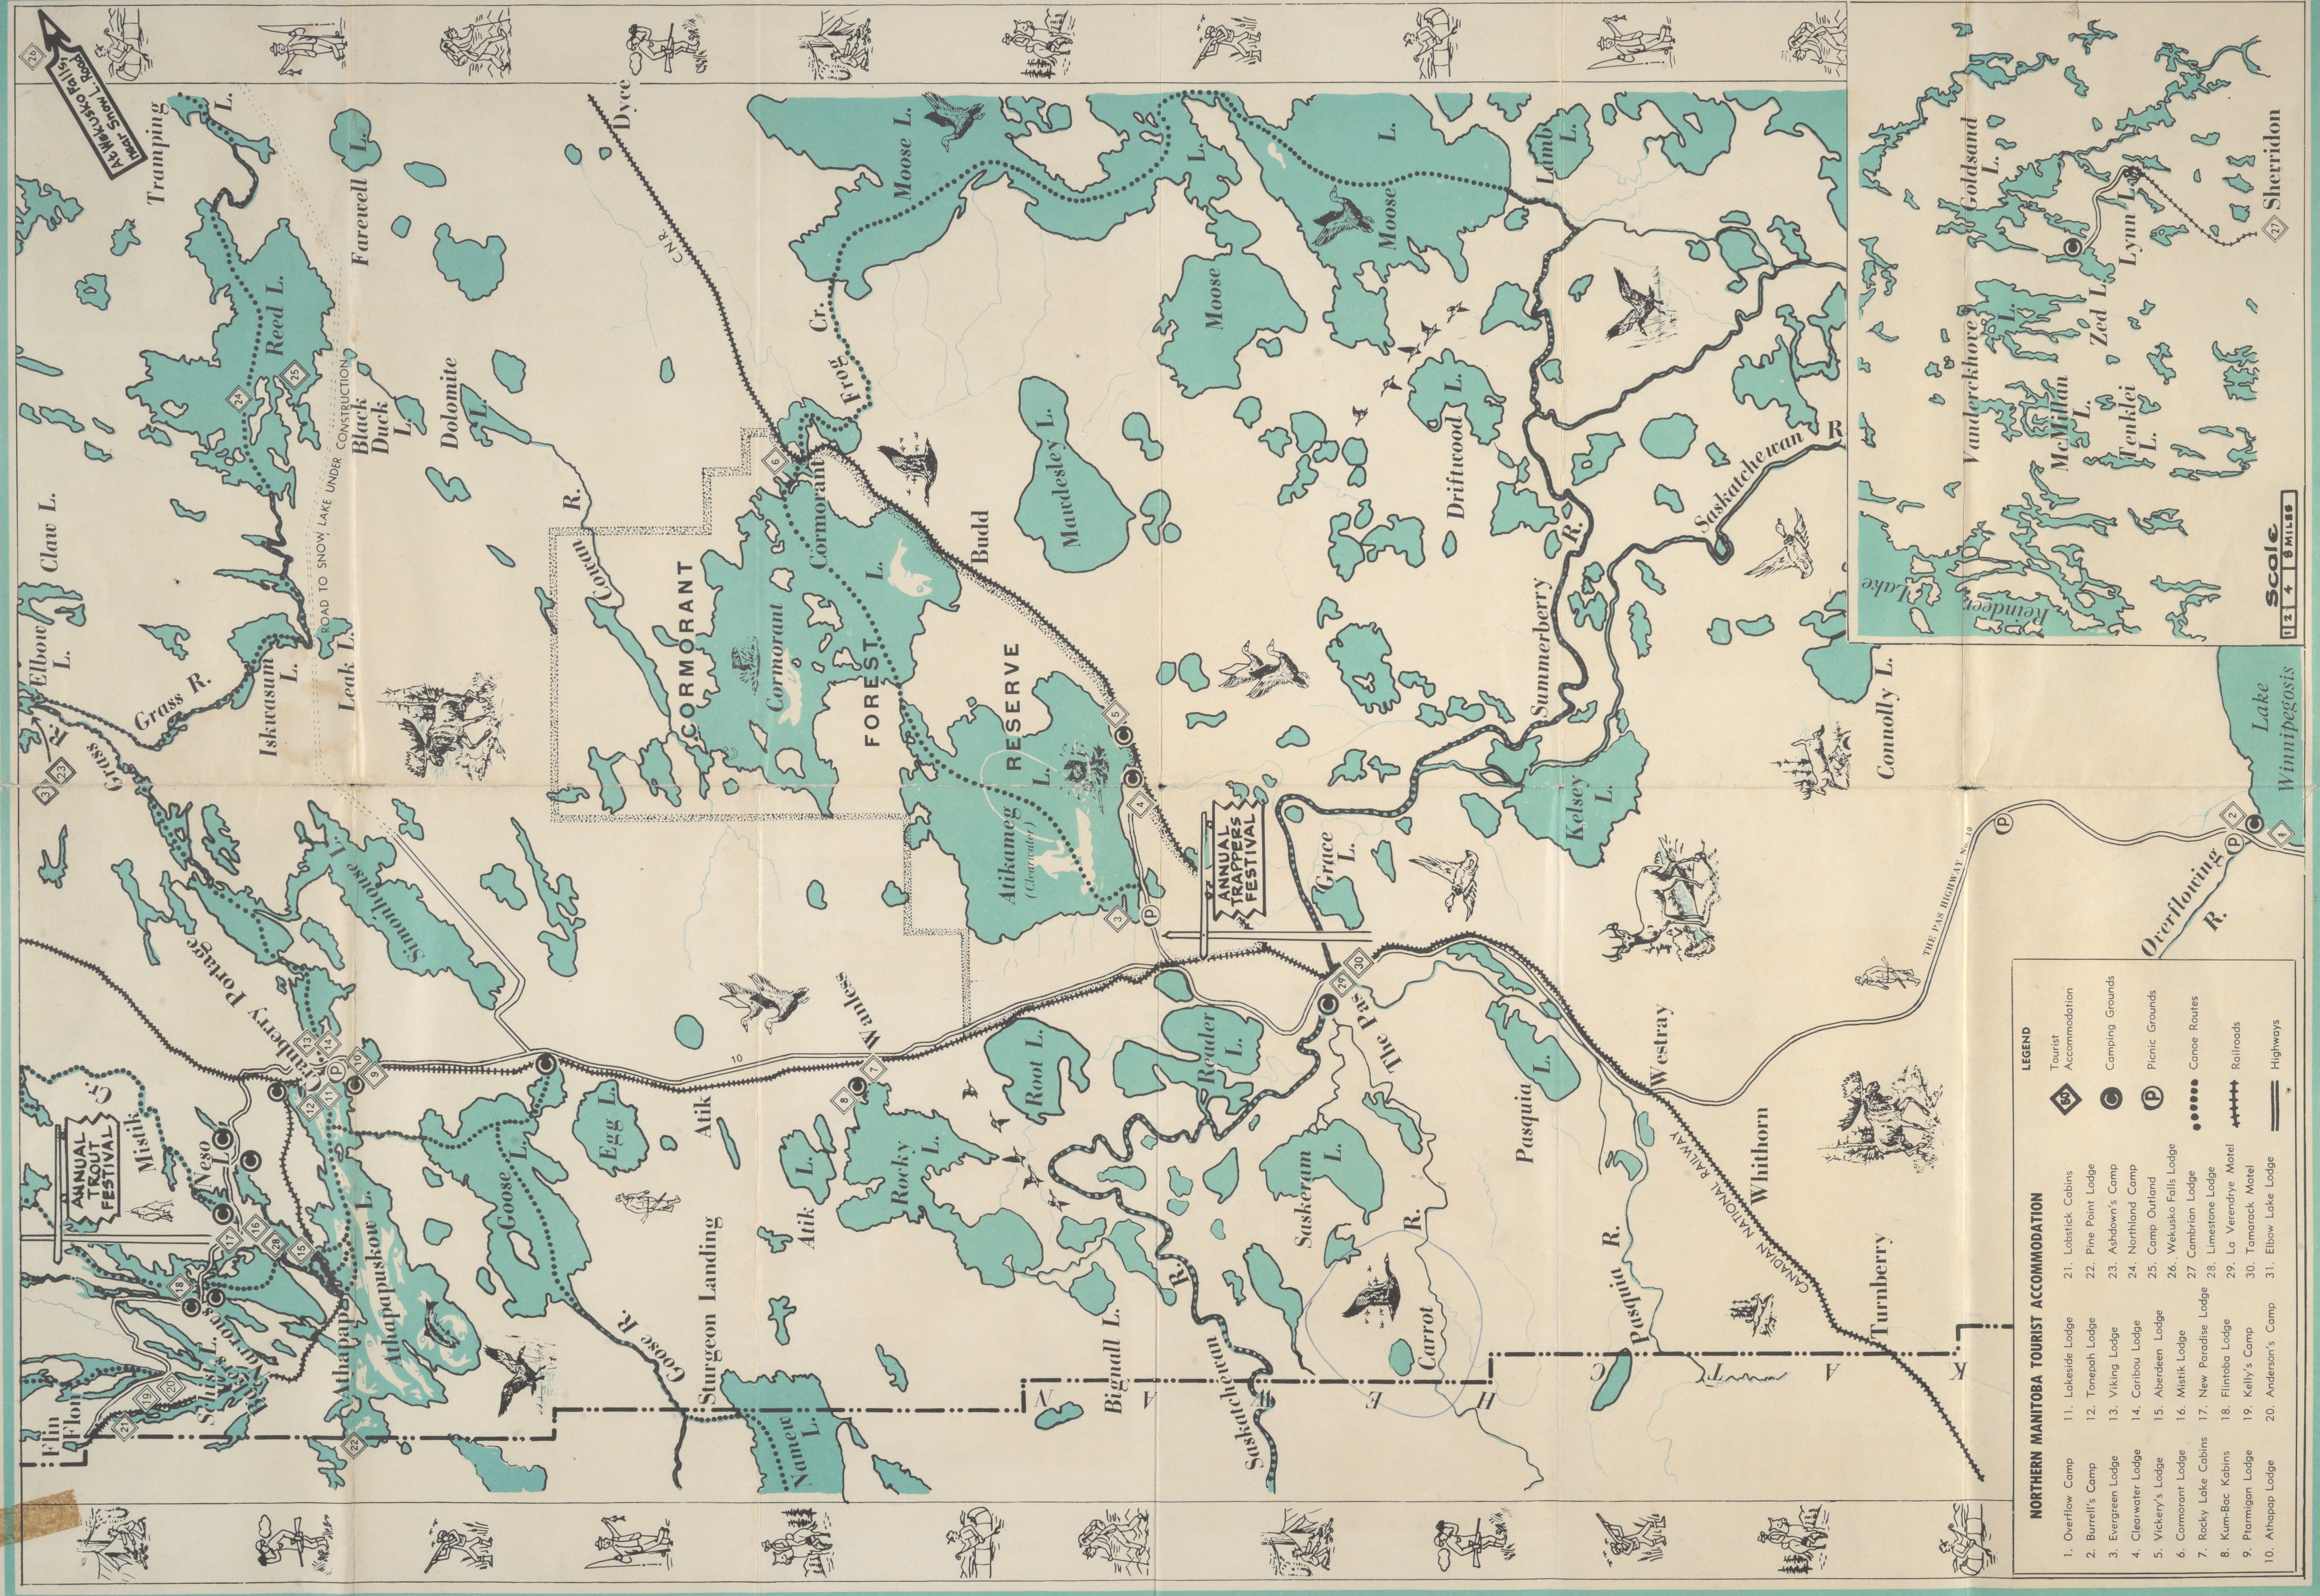

It's a safe bet you'll bag your limit of ducks and geese. Northern Manitoba is the "Waterfowl" Factory" of the Continent.

Fabulous Flin Flin! Capital of the Big Country, mounted on solid rock — as firmly rooted as the tradition of true Northern hospitality among its people.

Manitoba's Northland...

Where you rub shoulders with the men who are taming the frontier. Trappers, bush pilots, missionaries, fur traders, prospectors, government agents and world famous Mounties—you meet them all! Plan to visit Cree Indians on their reserves . . . see hardy Eskimos at Churchill, Manitoba's Hudson Bay seaport. And, wherever you go, there's the helping hand and true hospitality that characterizes the north country.

*Up North . . .
there's excitement
in the air*

Game fish galore! Northerns, Walleyes,
Lake and Brook Trout, Smallmouth Bass, Arctic
Grayling and Charr.

Excellent transportation! Car, bus, train
and boat. Scheduled or chartered flights.

***Comfortable accommodation at reasonable
cost!*** Motels, cabins, lodges, camping and
tenting sites are all available.

***Breath-taking beauty and abundant
game!*** Moose, Elk, Deer, Bear and Bird Life
are "fair game" for the camera fan.

*A warm
welcome awaits
you in*
